

PALA RESERVATION HOMEOWNERS

Act now to reserve your utility rebate for a FREE* whole home battery system

Safeguard your family against future power outages and peak energy rates with 10 kW Tesla Home Battery Powerwall System (valued up to \$26,400) installed by Swell Energy (Pala's preferred battery vendor)

Homes on the Pala Reservation are in high fire zones and subject to extended SDG&E outages. Without backup power, your home may spend days without electricity needed to power air conditioners, lighting, appliances, etc. The California Public Utility Commission (CPUC) just approved new funding through the Self-Generation Incentive Program (SGIP) for any home on the Reservation to install a battery backup system **at no cost** (up to \$26,400).* Applications for free home battery storage systems will be accepted starting on March 16th.

The new generation of lithium-ion "smart" home batteries, like the Tesla Powerwall offered by Swell Energy, plug right into your home's electrical system and offer the following benefits:

High fire-zone map for qualifying locations.

- ❖ **MAINTAIN POWER** at your home during an SDG&E outage
- ❖ **SAVE MONEY** by storing lower cost (off-peak) power and using during high cost (peak) times
- ❖ **USE WITH SOLAR** (optional) to increase backup power (with new or existing solar system)

To learn more join us for a remote meeting on THURSDAY, MARCH 19th at 1 pm or 6 pm

By phone:

At 1 pm: Dial 562-247-8422 and enter code 917-618-292

At 6 pm: Dial 631-992-3221 and enter code 868-460-667

By webinar:

For the 1 pm meeting, register at <https://tinyurl.com/palapower1>

For the 6 pm meeting, register at <https://tinyurl.com/palapower2>

*SUBJECT TO ELIGIBILITY. To be eligible for a CPUC rebate to receive a free whole home battery system: 1) the home must be on the Pala Reservation, 2) you must own the home, 3) the cost of the system installed by Swell cannot exceed the eligible rebate amount, and 4) rebate payment must be assigned to Swell. Other eligibility and project requirements, restrictions, and limitations may apply and may be changed at any time by the CPUC or SGIP Administrators.
